200,000kg	4.0m, 6.0m

Polyester round slings are made using a 100% polyester yarn and polyester jackets with their WLL clearly marked on the jacket and tags inside protective sleeves.

Key features of our quality slings are;

- **Safety factor 7:1**
- **Conform to AS4997.1-1997**
- **Individually tested**
- **Pre-inspected prior to every hire and tagged**
- **Certificate of inspection to individual slings**
- **Test certificates available**
- **Working temp range -40 to 90 degrees C.**
- **Elongation at WLL .3%**
- **Supplied with velcro wear pads**

We also stock wide body sling saver shackles to suit most of of spreader beams, the wider load bearing point offers a larger radius and increased contact between the sling and the shackle.
