DYNAMIC RIGGING HIRE

Australia's best range of quality heavy rigging gear

Load skates

Available for hire is a selection of machinery moving skates, rollers and jacking equipment, our range of load skates includes nylon wheeled load rollers that are ideal for finished floor surfaces such as food processing factories.

The multidirectional load rollers feature 360° castors so a load can be manoeuvred into the difficult of spaces.

Call us to discuss your needs and we will provide the best equipment options and advice.

Steering load rollers

Fixed load roller

Multi directional

Caterpillar tracked skate

Load skate type	WLL per skate	Wheels	Weight	Size (mm)
Multi directional	2 tonne	5	35kg	595 x 470 x 112 H
Steering	4 tonne	4	22kg	360 x 270 x 105 H
Fixed	4 tonne	4	14kg	305 x 210 x 112 H
Tracked skate	5 tonne	6	5kg	210 x 100 x 65 H
Steering	8 tonne	8	48kg	625 x 505 x 112 H
Fixed	8 tonne	8	28kg	510 x 210 x 112 H
Steering	12 tonne	12	52kg	810 x 515 x 112 H
Fixed	12 tonne	12	44kg	510 x 310 x 112 H

Did you know load will move safer on three skates than four? A load on four skates will always have one of four skates only partially loaded as most floors aren't perfectly flat. Just like a four leg table it rocks on an uneven floor where a three leg table will be stable, a load on three skates will distribute the load across three points evenly.
