

YALE 15T 360 CHAIN BLOCK

Made in Germany and of the highest quality Yale chain blocks are the ultimate in manual chain blocks. Yale 360 chain blocks feature a unique hand chain guide mechanism that rotates 360 degrees, this allows the operator to work from above the chain block or to have the chain block on any angle or even in a horizontal plane.

Yale chain blocks are exceptional well designed and built that are also very robust, a Weston style brake that works on load pressure is very reliable. Precision chain sheaves, encapsulated bearings and grade 100 load chain are of the highest quality and provide strength and a smooth operating function.

Compact on overall dimensions by comparison to mass produced chain blocks our Yale 306 15t chain blocks are all fully inspected and load tested in Australia and are issued with **NATA** test certificates for your piece of mind.

Yale^{lift} 360

Yale Lift 360	
WLL	15,000kg
Height of lift	4.0m
Chain falls	6
Load chain	10x30
Load chain grade	100
Weight	206kg
A	1065mm
B	85mm
C	64mm
D	303mm
E	555mm
F	250mm
G	391mm
H	501mm
J	396mm
K	125mm
L	125mm
M	471mm
N	56mm
